

LeissTech Computer Repair Work Order Agreement

Quality Service at Competitive Pricing

Thank you for choosing LeissTech Computer Repair for the repair of your system. We strive to provide you with the best possible service we can at the lowest possible rates we can give you. Please note that your system repair is a priority, and your order will be completed as quickly as possible. Please read through this sheet and sign at the bottom to agree to our service policy.

You have chosen to have your system diagnosed, repaired, built, and/or upgraded by LeissTech Computer Repair, LLC. Please note that your system may be opened up, and hardware may be moved or changed depending on your requested repair. Many times during diagnostic testing of components, hardware is removed and tested for full functionality. If for any reason hardware is removed permanently and/or new hardware is installed we will most certainly notify you prior to this change. A standard **computer diagnosis fee of \$25.00** is charged for diagnosing the computer in question. If you go forward with the repair, this fee is then deducted from your bills total.

Your system is worked on in a safe environment, and all hardware is treated on top of secure and grounded Electrostatic Discharge (ESD) mats, as well as with our own bodies grounded to ensure that your hardware is not harmed from any static electricity.

Once your systems service is completed, we may leave the system on running for 24 hours to test functionality of all hardware/software changes if any were made. Services requested that involve data restoration or backup cannot be guaranteed as hard drive or software related failure may compromise the data backup or restoration process. In addition, LeissTech Computer Repair, LLC currently does not work on Apple computers.

If for some reason your repaired system ends up slowing down, or any other diminishing effect starts occurring unless directly after receiving your unit from us (1 week time frame), we cannot be held responsible for this due to the fact that we cannot know if the owner or other operator has changed hardware settings or has installed/changed software related data on the hard drive or components controlling the system. LeissTech Computer Repair, LLC is not responsible for any illegal documents, media, programs, or other file types that the customer had stored on their hard drive at the time of pickup. Upon the notification that your requested service has been completed, you are required to have your device picked up and/or scheduled to be returned within 30 days. Failing to do so within 30 days will relinquish your property to LeissTech Computer Repair, LLC.

Thank you for giving us the opportunity to work on your particular system. We are certain that you will be happy with the service and quality of your repair. We look forward to working with you again in the future!
